

Winding on Customer-specific Bobbins

Variants

- Different winding methods
- With pin mounting
- Winding wire soldered, welded
- Insulation displacement terminals

Bobbins

- Different geometries
- Multiple chambers
- Size 3 to 400 mm
- With/without pins

Wires

- Varnished copper wires, strands
- Insulated wires

Know-how

- Single/multiple spindle winding equipment
- Flyer winding
- Own tool-making shop
- Joining techniques
- Pin mounting systems
- 600 different forms

Capacity

- 10 million/year

Applications

- Motors
- Actuators
- Sensors
- Linear drives

Packaging

- Trays
- Cardboard packages

Values specified are typical, but not binding.
